Notes

For the longest time, I've wanted to be involved in the entertainment industry. After school that's all I really wanted to do. Through this determined goal of mine I enrolled in numerous acting classes to learn what I couldn't from just watching films. From this I began to become more involved within the performing arts in continuing to act within a handful of short films as well as write and directing projects.

With each project or script came another challenge, which is what I love about it. Through these experiences I was able to meet people who I would collaborate with in order to make the ideas we both shared, a reality on the screen. I honestly can't imagine focussing on anything else.

Studying at Howard Fine and completing the Professional Acting Program has inspired a further interest and determination to be productive as an Actor in the Performing Arts Industry. I look forward to the challenges ahead and will continue to study to expand my knowledge and experience while networking with industry professionals.
